

## **Project Two Server Configuration**

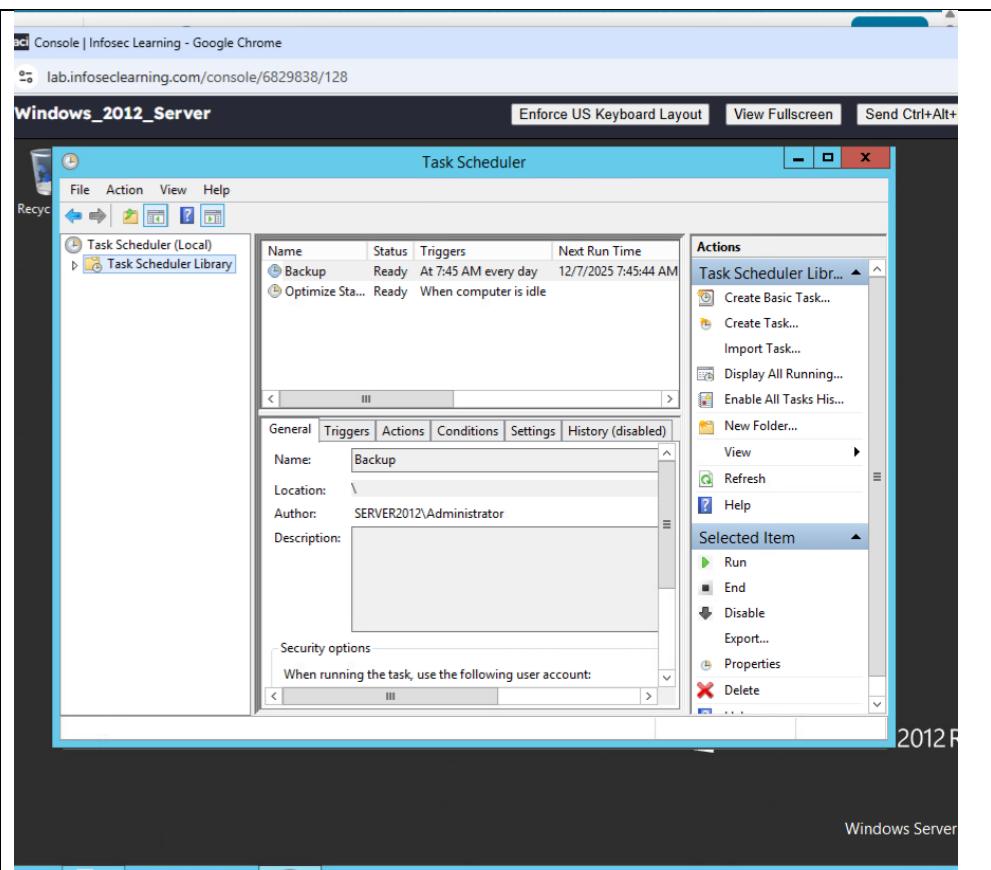

William Pascoe

CYB-230 Operating Systems Security

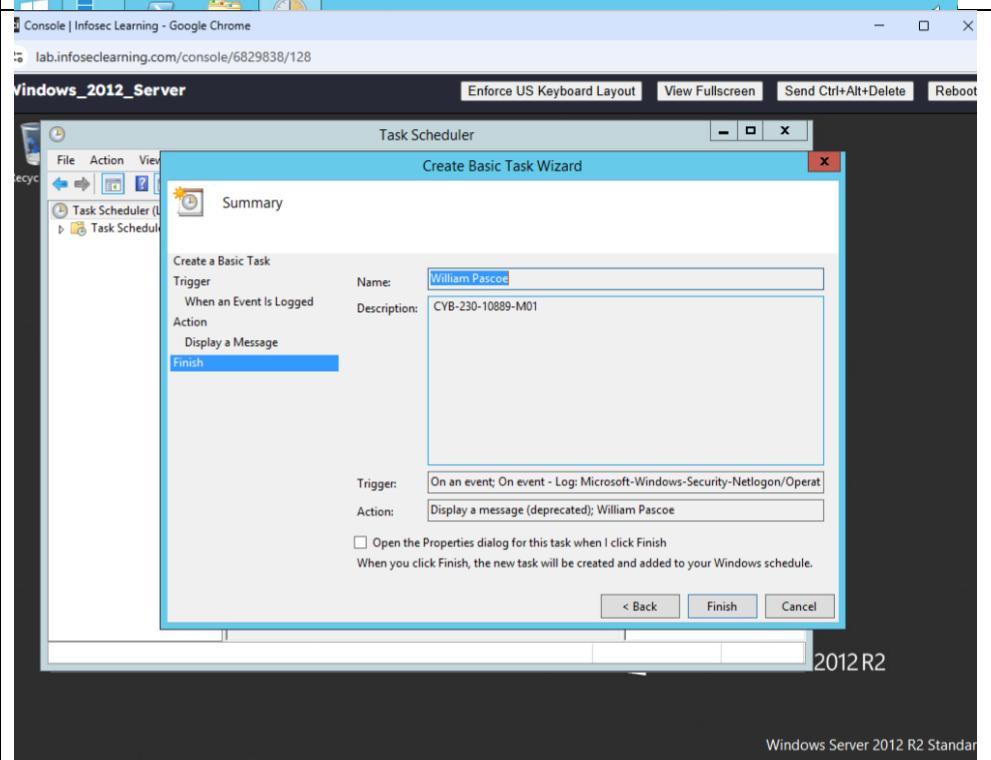

Jeremy Cheeseborough

December 6, 2025

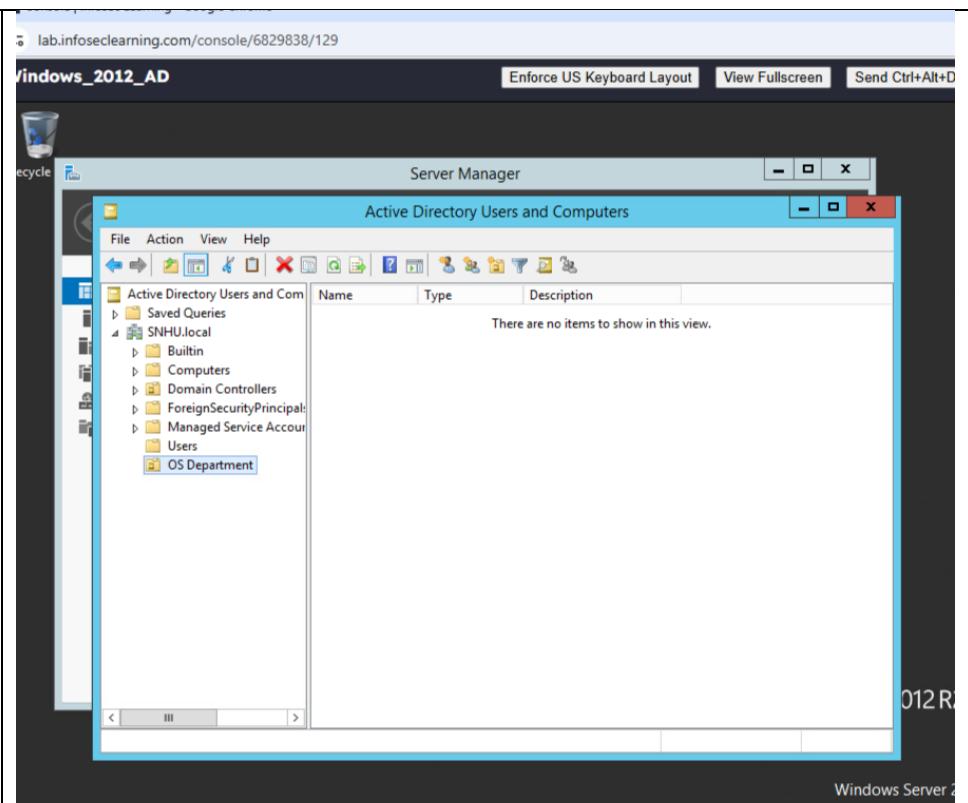

Configure Task Scheduler to back up the old server. Provide a screenshot of the Task Scheduler summary screen.

Configure a trigger for event ID 4624 in the Task Scheduler on the old server to meet the scenario requirements. Provide a screenshot of the Event Viewer custom view

Create a new organizational unit (OU.)  
Name the new organizational unit OS Department.  
Provide a screenshot of the unit in the Active Directory tree.

Create new users and add them to the new OU. Add three new users. Use the names of peers in your class.  
Provide a screenshot of the users in the Active Directory tree.
